

MIA BORGIA

DIGITAL MEDIA, ARTS, AND
DEVELOPMENT SPECIALIST

PERSONAL PROFILE

I've developed a passion to perpetually learn from the rapidly growing field of digital media, art, development, data visualization, and design. The project experiences and work opportunities I've had so far have cultivated my deep love for the digital craft.

JOB EXPERIENCE

Junior Software Engineer

LARSON TEXTS, INC. - ERIE, PA

MAY 2022 - *PRESENT*

- Writing back-end and front-end software code to produce a software that meets or exceeds business logic and company goals for the product
- Working, collaborating, and learning with a highly skilled team of professional Front & Back-End software engineers
- Setting up a developer environment to locally host, serve, and test a complex program
- Examining and studying given code base, iterating on prior work, and making improvements to code integrity and security
- Designing a platform that is as functional and straightforward on the client side as it is "under the hood"

Raw Footage Editor

FEED STUDIO - ERIE, PA

FEBRUARY 2022 - *PRESENT*

- Reviewing hours of raw drone footage and selectively cutting out highlight shots
- Using the client's description of desired output mood, pace, and vision for the final product to make editing decisions
- Compose the sequence of shots in a way that compliments the audio track provided by the client
- Using Adobe Premiere Pro to cut, polish, and apply transitions to selected highlight shots
- Collaborating back-and-forth with client to ensure the final cut exceeded their expectations

EDUCATION

Pennsylvania State University Erie, PA

DIGITAL MEDIA, ARTS, AND
TECHNOLOGY B.A.

AUGUST 2018 - MAY 2022

Cumulative GPA: **3.83**

Honors:

- Dean's List 2019-2022
- Winner of Best in Show in the Patricia Yahn Spring Art Show 2021

JOB EXPERIENCE CONTINUED

Software Development Intern

LARSON TEXTS, INC. - ERIE, PA
SEPTEMBER 2021 - MAY 2022

- Writing JSON Schemas to ensure back-end data validation, uniformity, and security
- Working with and learning from a highly skilled team of professional Front & Back-End software developers and engineers
- Using ArangoDB to store, query, and graph software data
- Graph data models using XML, XSLT, and Javascript
- Collaborating with colleagues to ensure that the back-end data structure conforms and reflects the company's goals and business logic
- Working with REST API development, Express.js, ArangoDB, and Postman

Web Development Intern/Creative Director & Animator

BEHREND OPEN LAB FOR DIGITAL CREATIONS
(BOLDC), THE DIGIT PROGRAM AT PENN STATE ERIE
DECEMBER 2020 - MAY 2022

- Creating and designing web presences for both the open lab and the DIGIT program
- Writing and styling websites with HTML, CSS, and SVG
- Helping catalogue and organize film equipment inventory
- Using Adobe Photoshop, After Effects, and Premiere Pro to create a short animated biopic film
- Creating an interactive virtual student art gallery
- Designed a logo using vector graphics in Illustrator

Back-End Data Coding Assistant

FRANKENSTEIN VARIORUM PROJECT
AT PENN STATE ERIE
JUNE 2021 - MAY 2022

- Finding, assessing, and fixing bugs and coding continuity errors in a complex network of text collation code
- Writing XML, XSLT, and a bit of Python to correct data output errors
